

Whose **TEETH** are these?

I am one of the largest, fiercest, scariest animals that has ever lived. My jaws are so wide, you can stand up inside them—if you dare!

My teeth are as sharp as butcher's knives. Each one has a cutting edge like a saw. Can you guess who I am?

A *Tyrannosaurus rex*!

My teeth are pretty scary, but just look at my feet! Those sharp claws will make short work of any prey. I hide behind some trees waiting for a Triceratops to pass by. Then, with a mighty roar, I leap into the attack.
